SUMMARY

Final-year Computer Science student who enjoys building things end to end from a clean UI down to the database. I work mainly in C, Java, SQL and JavaScript, and I've spent the last several months building web apps with the MERN stack and React. I like figuring out how systems fit together, and most of what I know beyond the classroom has come from working on projects I actually cared about. Looking for a role where I can keep learning while contributing from day one.

EXPERIENCE

Full Stack Developer Intern — WSA Sep 2025 – Nov 2025

- Building and maintaining web applications as part of a small team using the MERN stack.

UI/UX Design Intern — Proxenix Oct 2025 – Dec 2025

- Designed wireframes and prototypes in Figma, focusing on making interfaces simple and easy to use.

EDUCATION

Sahyadri College of Engineering and Management, Mangalore — B.E – CSE Sep 2023 – Jun 2027

- CGPA: 8.26

St. Philomena Pre University College, Puttur — PCMB Jun 2021 – Mar 2023

- Percentage: 80.66%

PROJECTS

Sustainable AI-Based Deep Learning Models for Automated Diagnosis of Canine Skin Diseases (DermaPaw)

- Built a canine skin disease detection system using MobileNetV2 and PyTorch for the model, Flask for the backend, and PostgreSQL (Supabase) to store classification results, severity scores, and treatment suggestions.

Smart Sustainable Travel AI

- Built an AI-powered tool that suggests eco-friendly travel routes to encourage more sustainable trip planning.

Sainik Sahayak

- A welfare management system to help soldiers and their families access support services more easily.

Eco Charge

- Concept for a solar-powered EV charging station, aimed at cutting reliance on grid electricity.

SKILLS

Languages: C, Java, SQL, JavaScript

Tools: Figma, VS Code, Vercel, MySQL Workbench, Canva, Postman, XAMPP, GitHub

Techniques: Machine Learning, MERN Stack, Generative AI, Deep Learning, Web Development

Soft Skills: Strategic Thinking, Collaboration, Leadership, Problem Solving, Time Management

Language Proficiency: Kannada, English, Tulu, Hindi

CERTIFICATIONS

- Infosys Certified — Handling Arrays in C Programming
- Infosys Certified — Java Foundation Certification
- Microsoft Certified — Introduction to Microsoft Azure
- Google Certified — Foundations of Cybersecurity
